# Unlock a **PRODUCTIVITY** Boost

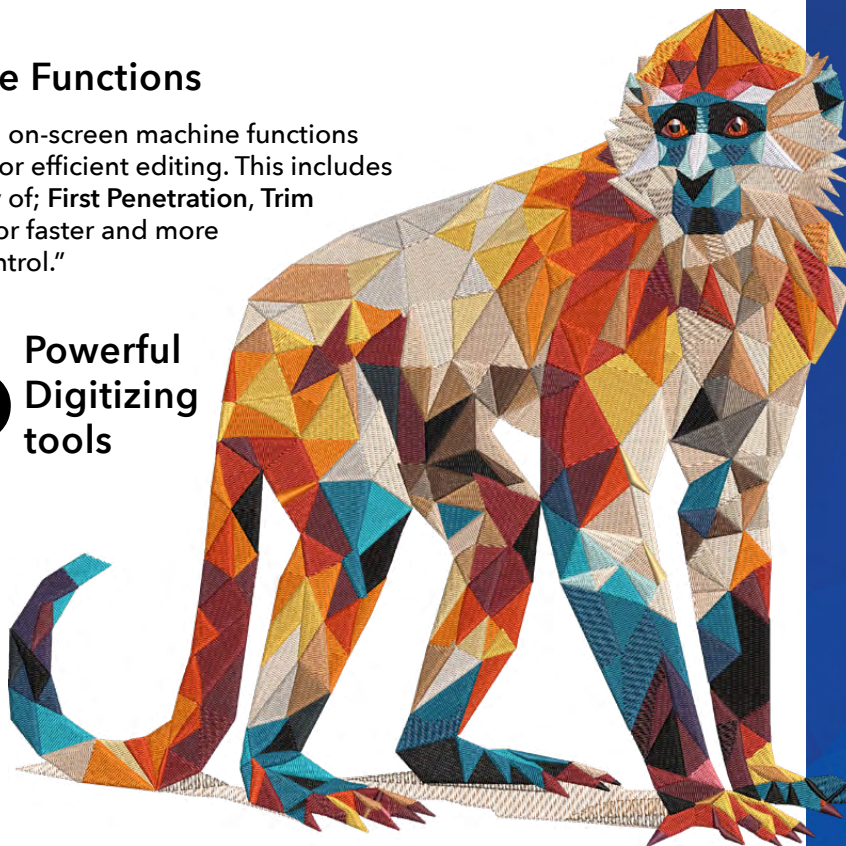

NEW

## Machine Functions

"Enhanced on-screen machine functions designed for efficient editing. This includes the display of; **First Penetration**, **Trim** and **Stop** for faster and more precise control."

# 16

Powerful  
Digitizing  
tools

NEW

Single click  
**CENTER ALL**

## Advanced Editing Tools

- ✓ **NEW** HoopMaster Mighty Hoop support
- ✓ Re-engineered intelligently resequencing
- ✓ Reduce costly trims and jumps
- ✓ Push travel runs to the design edge
- ✓ Automatically remove overlaps
- ✓ Object-based easy editing.
- ✓ Full control of quality stitch setting, density, underlay, and pull compensation.
- ✓ Powerful Transformation & Shaping Tools
- ✓ Pre-installed Thread Charts
- ✓ In-built galleries
- ✓ 200 Motifs, 60 Program Splits, plus more
- ✓ Compatible with all major embroidery machine brands

NEW

## Laydown Stitch

Easily generate an open stitch background to hold down fabric nap or use as a global underlay.

### EDITING MADE EASY:

Travel through your embroidery design by **Object**, **Segment**, **Color**, **Function**, **Trim** or **Stitch-By-Stitch**.

NEW

## Multi-Hoop

Create and export designs that split over multiple embroidery sewing fields.

## Mirror Merge

Quickly duplicate objects in circular patterns or rows—perfect for creating precise badges. Specify rows and columns for efficient color resequencing.

## Thread Charts and Colorways

- Save multiple colorways to a single EMB file.
- Automatically match design colors to threads.

ENHANCED

## Branching

Designed for greater efficiency with reduced travel runs, eliminating costly trims.

## Spiral Fills ▶

Add dynamic stitch patterns to create motion and depth with smooth spirals.

NEW

## Export History & Increased Speed ▶

Export machine stitch files in the background while continuing to digitize, with full export history visible in the new Exports Docker.

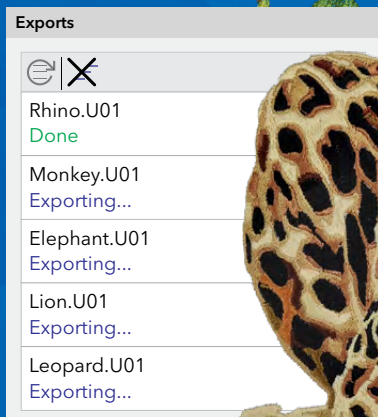

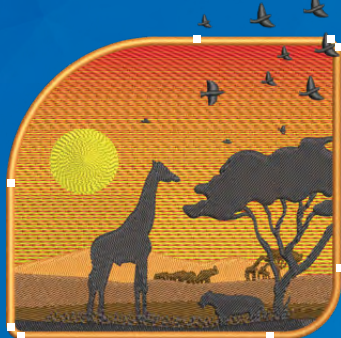

**CorelDRAW**  
GRAPHICS SUITE

"The integrated **CorelDRAW® Graphics Suite** provides flexibility to trace bitmaps or edit vector designs. With one click, transfer designs to EmbroideryStudio."

NEW

## Rounded Corners ▼

Quickly set one or all 4 corners independently. Great for badges.

ENHANCED

## Auto-Digitizing

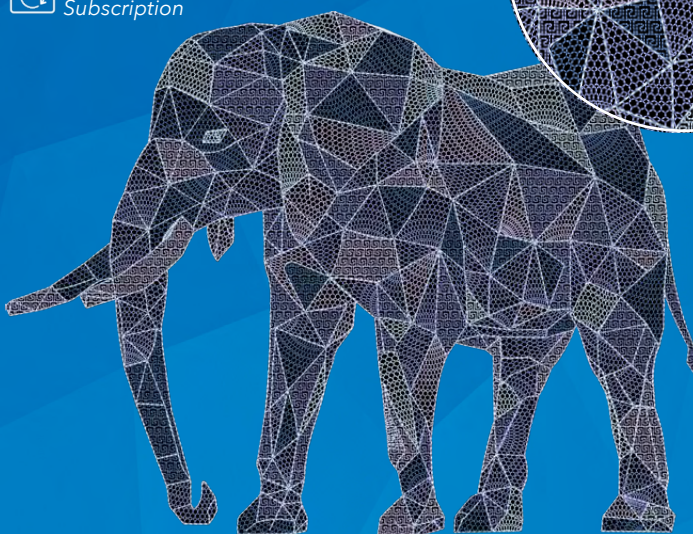

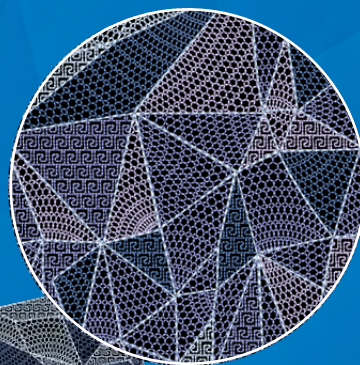

"Select entire designs or specific sections, and combine auto-digitizing with traditional digitizing for increased efficiency."

## Motifs Advanced ▼

Create motif runs or fill shapes with gradient and variable-size motifs.

Included with **DESIGNING**  
Subscription

## Design Library

All Embroidery and graphic files are indexed and fully searchable.

## Worksheets

- Production Worksheets with Barcodes
- Product Preview
- Approval Worksheets

## Maze Fill ▶

Fill shapes with perfect double spiral stitch effects.

Included with **DESIGNING**  
Subscription

# Explore Your Creative Potential

## Color PhotoStitch

Convert a multi-color photographic file into a color digitized design, creating an artistic stitch effect.

## Accordion Spacing

Spacing between dense and open stitch, producing a graduated shading effect that's time-consuming to achieve manually.

## Stipple Fill ▶

Create a textured effect and fill a closed shape with a meandering running stitch pattern.

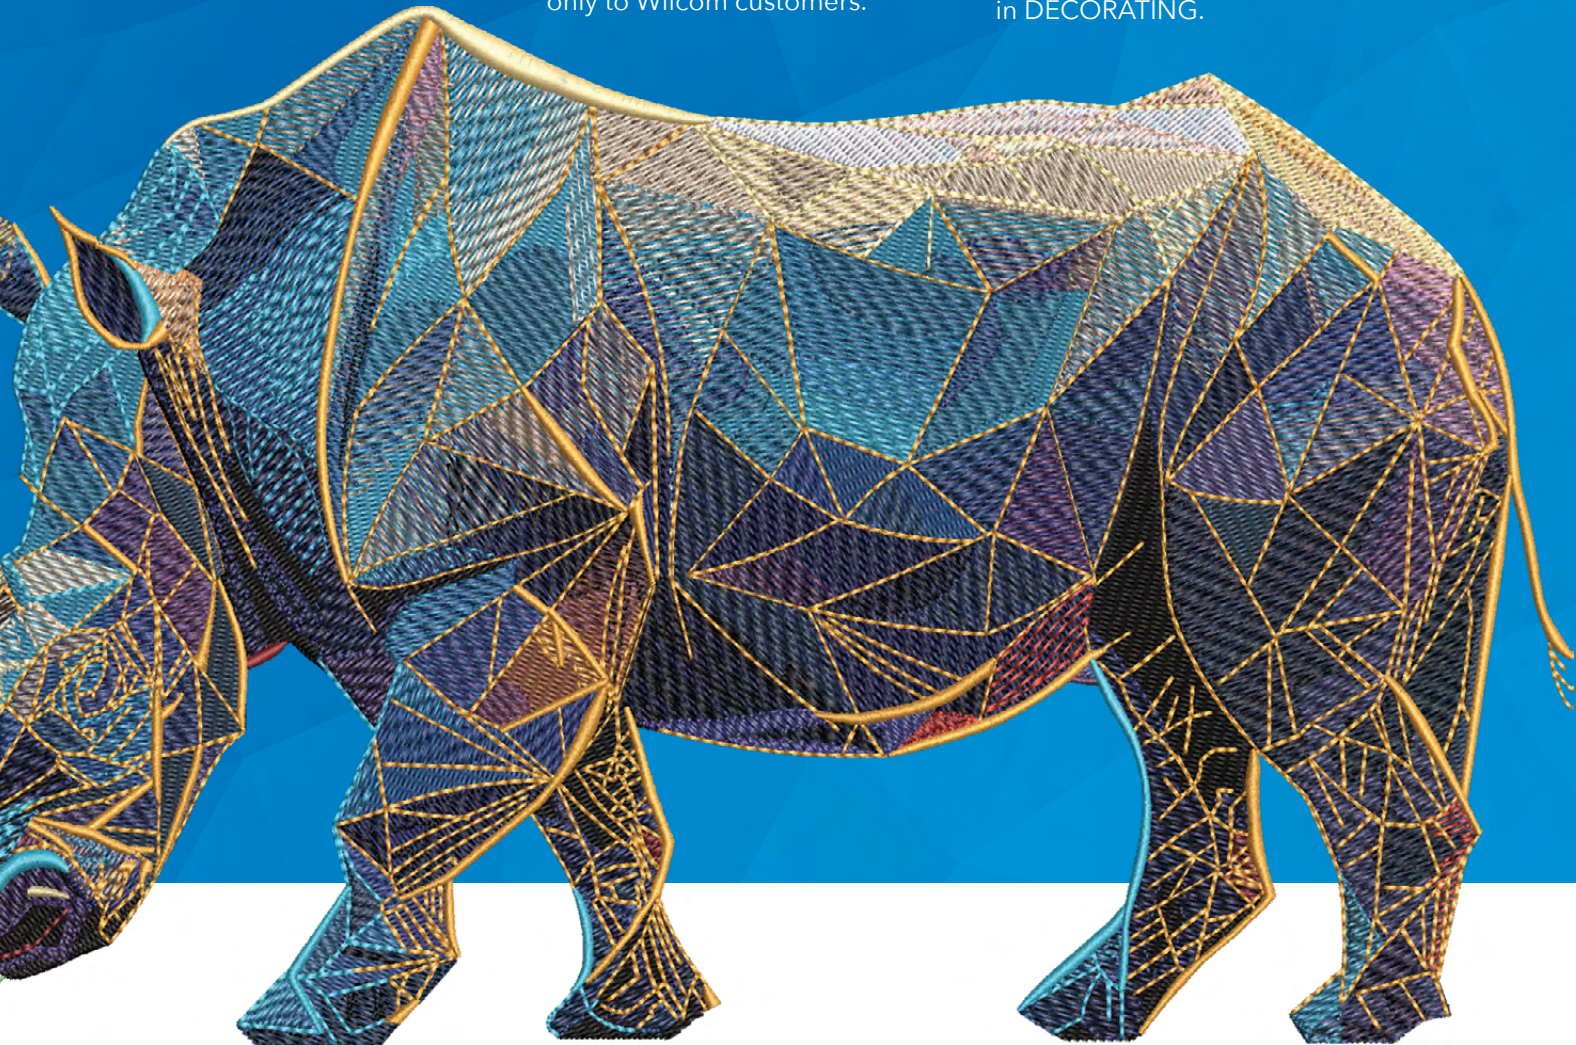

NEW

## ◀ Wilcom Academy

Comprehensive, step-by-step training to support your learning journey, with exclusive content available only to Wilcom customers.

## ▶ Color Blending

Effortlessly create seamless color gradients with 8 unique effects in DESIGNING, or manually customize your blends using layered open fills in DECORATING.

*Compatible with all major embroidery machine brands.*

NEW

## Keyboard Collections

The Keyboard Design Collection (KDC) tool simplifies mapping the alphabet and other embroidery designs to keyboard characters, making them instantly accessible with lettering and monogramming tools.

Includes 2 pre-designed KDC sets with capital letters and numbers.

"Wilcom lettering just got better!"

HIPPO POTAMUS

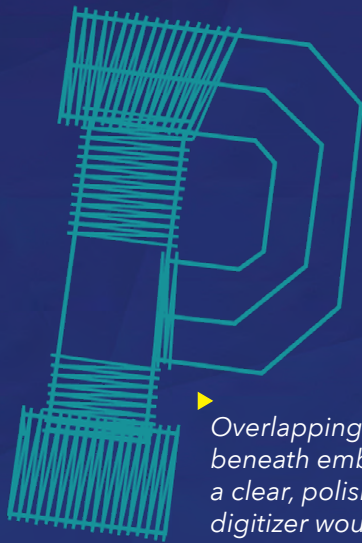

Resequenced

NEW

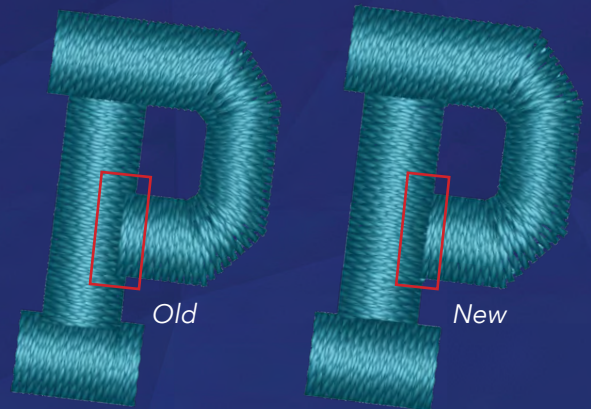

## Lettering Resequenced

Expert resequencing ensures professional-quality results by managing overlaps and sequencing key stitches first.

▶ Overlapping sections are neatly tucked beneath embroidery strokes, creating a clear, polished finish, just as a skilled digitizer would achieve manually.

Gold Class  
*Lettering*  
in every product level
